

FAITH AKINYI

Full-Stack Developer · React · Node.js · Django · REST APIs

akinyifaith222@gmail.com | <https://www.linkedin.com/in/faith-akinyi-5ab818350> | <https://faith-lemon.vercel.app>

Professional Summary

Full-stack developer with hands-on experience building and deploying web applications using Python, JavaScript, React, FastAPI, Django, Node.js, and REST APIs. Skilled in database design with PostgreSQL, MongoDB, and MySQL, along with AWS, Docker, CI/CD, and GitHub-based collaboration. Comfortable delivering complete systems independently, from responsive interfaces and secure backend services to integrations and deployment.

Technical Skills

- **Frontend:** React · JavaScript (ES6+) · TypeScript · HTML5 · CSS3 · Tailwind CSS · Responsive Design
- **Backend:** Node.js · Express.js · Python · Django · Django REST Framework · REST APIs
- **Databases:** MongoDB · PostgreSQL · MySQL
- **Authentication & APIs:** REST · Role-Based Access Control · API Integration · Postman · M-Pesa Daraja · Paystack
- **Cloud & DevOps:** AWS · Docker · GitHub Actions · CI/CD · Vercel · Netlify
- **Tools:** Git · GitHub · Linux

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer

Remote 2024–Present

- Built full-stack web applications using **React, Node.js, Express.js, MongoDB, and PostgreSQL**, covering frontend development, REST API design, database integration, and deployment.
- Developed responsive **admin and customer interfaces** with tables, filtering, search, multi-step workflows, and role-based access control.
- Designed and integrated RESTful APIs for product, order, booking, payment, and transaction workflows using **Express.js and Node.js**.
- Designed relational and NoSQL data structures for application entities including **products, orders, users, bookings, payments, and transactions**.
- Built React interfaces with responsive layouts and reusable components, testing interactions across desktop and mobile screen sizes.
- Integrated third-party services including **Paystack and M-Pesa Daraja APIs** into full-stack applications.
- Containerized applications with **Docker** and automated deployment workflows using **GitHub Actions, AWS, and cloud hosting platforms**.
- Used Git and GitHub workflows for source control, iterative development, and project delivery.
